We have tested the vast majority of students last week and the process ran very efficiently due to the excellent attitudes of our students who attended and a superb effort from our testing team.

If your child was unable to attend school for their first test please do not be concerned as they can still join us Monday morning to be welcomed back at Middlewich high school. They can access their first Covid test when their form group are invited down to the sports hall to complete their second and/or third test (consent form attached which needs to be emailed back to covid@middlewichhigh.cheshire.sch.uk should we not already have one on our file). Please also be reminded that the test is voluntary, although encouraged, and should your child not want to be tested they will be reassured that this is fine.

Test kits will be pre-registered for those students who have returned their consent forms. You may receive an email from a .gov email address about this. You do not need to contact the school about whether you have received one or not, testing will still be carried out for those students who have consent.

Students should continue to use their designated gates and arrive on time please. I am really looking forwards to welcoming all of our students back into school Monday!

Kind regards
