

R4	Percentages with a Multiplier	S3	Averages for Small Data Sets	A8	Plot Linear Functions	S5	Time Series Graphs
A6	Changing the Subject of a Formula	A7	Representing Inequalities	S4	Tables & Timetables	A9	Distance-Time Graphs

A5	Generate and Describe Sequences	S2	Theoretical Probability	A4	Plotting Vertical and Horizontal Lines	A3	Formulae & Substitution
N8	Add and Subtract Fractions	G6	Constructions with Compasses	G5	Reflection & Rotation	R2	Converting Metric Units
R3	Proportion Scaling	N7	Fraction, Decimal & Percentage Equivalence	N6	Factors, Multiples & Primes	N5	Rounding to Multiples

N1	Calculations with Decimals	G1	Measures of 2D Shapes	G2	Properties of 2D Shapes	A2	Forming and Solving Equations
N2	Calculations with Negatives	A1	Introducing Algebraic Notation	S1	Representing Categorical Data	N4	Use of a Calculator
N3	Order of Operations	R1	Ratio and Fractions	G3	Angle Facts	G4	Nets of 3D Shapes

Place Value	Calculating	Operations	Negatives	Factors, Multiples, & Primes	Fractions, Decimals & Percentages	Indices	Notation	Formulae	Graphs	Sequences	Equations	Inequalities	Non-Linear Graphs	Notation	Proportion	Percentages	Rates of Change	Scale	Graphs	Similarity	Shape	Perimeter & Area	Construction	Transformations	Angles	3D Shape	Measures	Representing Data	Summarising Data	Probability
